

## Chroma-Key Green Screen Studio Hire

AVT Connect has a Chroma-Key video studio for hire, situated in the same building as our Voice-Over Studio.

This makes it the perfect choice should you need to record in both for the same project.

Fully air conditioned and easily able to shoot a full-length body shot, the studio is suitable for talking-head interviews or company addresses.

Situated in the heart of Brighton, within easy walking distance from the city centre, Brighton train station is just a 15 minute walk away. There is ample local parking and an NCP Car Park around the corner on Brunswick Square.

Chroma key is a technique that's been developed for joining two images or pieces of footage together.

This is achieved by filming the subject against a green background and this is then removed or made transparent in post production and then reveals the other image that has been placed behind it.

The studio covers an area of 290 square feet and comes complete with lights and preview monitor to ensure smooth shooting.

Live keying is also available via a Sony Anycast for either live recording or as a keying preview monitor.

### Studio rates

| Half day<br>(4 hours)   | Full day<br>(8 hours)   |
|---|---|
| <ul style="list-style-type: none"> <li>• Studio hire</li> <li>• ARRI Lighting kit</li> <li>• Sony Z1 Camera with tripod</li> <li>• Basic sound kit</li> </ul> | <ul style="list-style-type: none"> <li>• Studio hire</li> <li>• ARRI Lighting kit</li> <li>• Sony Z1 Camera with tripod</li> <li>• Basic sound kit</li> </ul> |
